

## 6. CONCLUSION

---

In review, this internship has been an excellent and rewarding experience. And have been able to meet and network, with so many people that I am sure will be able to help me with opportunities in the future. Apart from all the theoretical learning, I have also gained some self-skills like time management, as well as self-motivation. Needless to say, the technical aspect of the work I have done are not flawless and could be improved provided enough time.

This internship has inspired me into pursuing a future in development in the field of building and deploying scalable applications.
